

EXTERIOR P.O.P.

Each point-of-sale fixture at your location is designed to convey a very important message to customers about your products, promotions and services. All sign fixtures also maintain the professional Sunoco retail image.

Since these fixtures relate to your everyday business operation, it is important that you become familiar with their individual configurations, required locations and messages.

Keep all signs clean and neat so the right message comes through clearly to your customers.

Perimeter Pole Sign

The Perimeter Pole Sign is used to display changeable service and promotional messages. The message area measures 45" x 60", and the sign can be mounted on poles 3" to 6" in diameter. <!-- Code modified by Z05srd for SR C130411-7771684 --%> <!--
